Reserves Policy

Scope

This reserves policy explains to existing and potential funders, donors, beneficiaries and other stakeholders why we are holding a particular number of reserves. It gives confidence to stakeholders that our finances are being properly managed and will also provide an indicator of future funding needs and our resilience.

Oversight

Once a reserves policy is a living document, so describes the process we will follow in creating it. The amount held in reserves will be monitored during the course of the year as part of our budgetary process and financial monitoring.

Reserves

Reserves. Are that part of our unrestricted funds that is freely available to spend on any of our purposes. The items excluded from reserves are:

- tangible fixed assets used to carry out the charity's activities, such as land and buildings.
- designated funds set aside to meet essential future spending, such as funding a project that could not be met from future income.
- commitments that have not been provided for as a liability in the accounts.

Developing Our Policy

There is no single method or approach to setting a reserves policy and the right approach depends on the size, complexity of activities, legal structure and the nature of funds received and held by our charity. The process we use involves:

- Consideration of the nature of the funds received and held by the charity:
 - Are the funds unrestricted or restricted income?

- Understanding the nature of the funds allows trustees to identify unrestricted funds which can be spent on any purposes of our charity.

Including future budgets and future projects or spending plans that cannot be met from the income of a single year, and uncertainties we may face in the future, such as the need to hold some reserves to meet an unexpected call on funds or opportunities that may present themselves.

We will use the above process to identify why reserves might need to be held and to decide the amount of reserves needed to operate effectively

Levels of Reserves

Our target level of reserves may be expressed as a target figure or a target range and will be informed by:

- Our forecasts for levels of income for the current and future years, taking into account the reliability of each source of income and the prospects for developing new income sources
- Our forecasts for expenditure for the current and future years on the basis of planned activity
- Analysis of any future needs, opportunities, commitments or risks, where future income alone is likely to fall short of the amount of the anticipated costs
- Assessment, on the best evidence reasonably available, of the likelihood of a shortfall arising which means that reserves are necessary, and the potential consequences for the charity of not being able to make up the shortfall.

Monitoring of Reserves

We will keep our reserves policy and the level of reserves held under review, monitor the level of reserves held throughout the year to establish the reason for any significant difference with the target level set. If reserves during the year are below target or exceed target, we will consider whether this is due to a short-term situation or a longer-term issue, and take any appropriate action.

Annual Reporting

We will include in our annual report our policy on reserves, stating the level of reserves held and why these are held. If material funds have been designated, the reserves policy

statement will quantify and explain the purposes of these designations and, where set aside for future expenditure, the likely timing of the expenditure.

Version Control - Approval and Review

This policy will be reviewed by the Board annually, as part of our financial planning cycle.

Version No	Approved By	Approval Date	Main Changes	Review Period
1.0	Board	Jan 24	Initial draft approved	Annually
